

GNI ReSound

# Lynx™

A complete life enhancing alert system based on market leading technology.

A woman with short grey hair is sitting in a light-colored armchair, smiling. She is wearing a red and black striped sweater, black pants, and red boots. The background is a solid light pink color. In the upper right corner, there is a large, faint grey outline of a keyhole. To the left of the keyhole, there is a block of text.

*Everyone has a right to feel secure and aware of their surroundings. A discreet alert system provides the user total awareness and makes it easy to relax.*

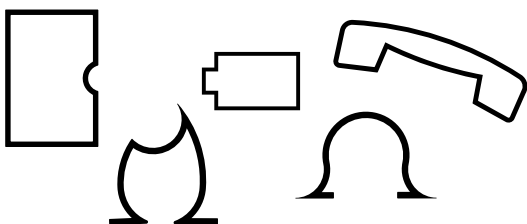

# Introducing the Lynx system featuring the MiniVib, the market's most innovative alert indicator.

**GN ReSound is proud to present the innovative Lynx system. A complete line of alert products serving the needs of the hearing impaired. The Lynx MiniVib is the most advanced product of its kind on the market. It is a marvelous example of how far technology has developed and progressed in recent times. Unique to the Lynx system in general and the MiniVib in particular is the ease of use. It allows people of all ages with impaired hearing to live an even more enriching and carefree life.**

Young people no longer need to fear missing out on the good things in life, and senior citizens are more active than ever before. This means that those who normally depend on hearing technology place higher demands on modern equipment than ever before. The products must be easy to use, ingeniously designed and should allow the user a more active lifestyle. This has always been the incentive when developing our line of well recognized alert products.

The new Lynx MiniVib is one of those modern and life enhancing alert products that has been needed for a long time. It is our answer to the market's demand.

*Five clear symbols.*

# Secure awareness around the clock. That's what makes the Lynx MiniVib unique.

The Lynx MiniVib is a high tech product that greatly enriches the everyday lifestyle of its owner. Seldom has something so small provided such big advantages.

*Lynx MiniVib—the perfect alert product for an active lifestyle.*

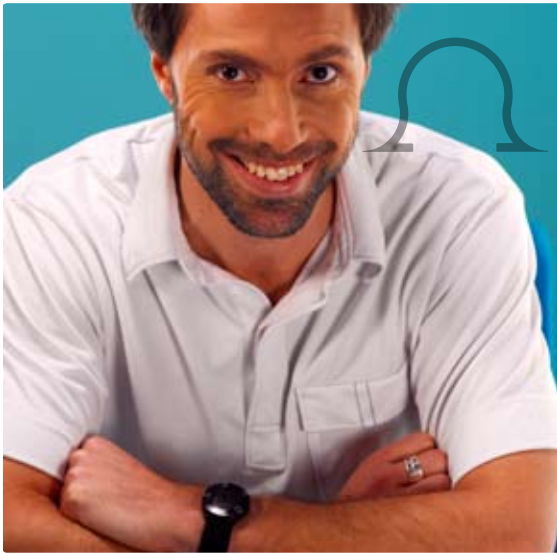

**Compact and discreet:** The unit's small size is a major advantage. It is the smallest and lightest product of its kind currently available on the market. The compact size also makes it very discreet. When worn around the wrist or ankle the MiniVib is nearly undetectable.

**Clear alert indicators:** The basic function of the MiniVib is to create different pulses of vibration as well as lighted indications in response to various alert activities. This provides clear awareness of each situation.

**Always aware:** Thanks to the MiniVib the user can be comfortably aware of surrounding events 24 hours per day. Maximum awareness means maximum confidence.

**Water resistant and durable:** The MiniVib is also water resistant. The case is elegant, robust and durable, and the flexible strap makes it easily adaptable when the user needs to work freely with both hands.

**Easy to use:** The MiniVib is simple to use and the lighted indicators are clearly visible. When set for night-time mode, all alert modes except the fire and wake up alarms are disabled. The unit operates on rechargeable batteries.

The Lynx MiniVib is discreet, water resistant and goes everywhere. It provides maximum awareness around the clock, even without a hearing instrument. When alert events are activated the MiniVib generates easily recognizable vibrations and lighted indicators. Standing firmly on the leading edge of the Lynx system, the MiniVib is our hallmark product for the future.

# The Lynx system is a comprehensive line of high quality alert products.

The Lynx alert system consists of modern and dependable products developed with diverse needs in mind. Each product is designed to fulfill a specific function as effectively as possible. Some products do their job unobtrusively in the background while others are more visible. All of our products are made to the highest standards of durability and attractive design.

**Lynx Flash**  
*Alerts the user through powerful various flashing signals for different events. Suitable for placement on, for example, a television set top or mantle.*

**Lynx Repeater**  
*Strengthens the alert signals from the transmitters. Suitable for use in larger houses or other surroundings. It is also a receiver that can generate alerts with different types of sound signals.*

- Transmitter
- Receiver
- Repeater

**Lynx MiniVib**  
*Our latest and most unique receiver that can be used when and where required, for example around the wrist, arm or ankle.*

#### **The Lynx**

*(Latin: Lynx Lynx)*

*Even though the lynx lives among us, they are seldom seen. A mystical and tireless hunter, always aware, the lynx rarely misses the mark.*

#### **The high-tech leader**

It takes a special kind of company to set the pace of technological development for the international hearing industry. Thanks to our position as one of the largest hearing instrument manufacturers, a dedicated staff of more than 3,400 and a tradition of company-wide innovation, GN ReSound is widely recognized as the hearing industry's leader in innovation.
